THE COLUMBIA HOMES DIFFERENCE

While mega builders compete for status as Wall Street darlings, Columbia Homes' sole focus is pleasing Main Street homebuyers like you.

As a privately held, locally owned and operated building company, Columbia Homes is focused exclusively on the long-term objectives of its valued customers, not on the demands of shareholders. Over the years, Columbia Homes has built an outstanding reputation by focusing on quality construction one buyer at a time. Often, that requires modifying plans or schedules to accommodate client needs. And, as many national builders turn to factory built components to improve efficiency and corporate profits, Columbia Homes remains committed to Old World craftsman-ship, proven materials and time-honored attention to detail. As a result, Columbia Homes consistently delivers exceptional results on time and within budget.

Columbia Homes may not be the biggest home builder on the block, but it is second to none when it comes to exceeding customers' unique expectations and lifestyle requirements. So, if you're looking for a builder with a history of superior personal service, customization and a relentless pursuit for perfection, look no further than Columbia Homes.
