The Hampton

Graceful arches that define and separate spaces at every threshold are among the superb design details of The Hampton, where different ceiling heights add to the drama. A studio ceiling in the great room and dining room complements the fireplace, expansive windows and a sliding glass door. A 9 ft. ceiling raises standards in the centerpiece kitchen, connected to neighboring space with a snack bar; and a cathedral ceiling heightens the drama in a lavish owner's suite. The second bedroom is perfect for overnight guests with its close proximity to the second bathroom or it is ideal as a library or den. A full basement, with options for finishing, presents ample extra space.
